Moving Toward Worship Together

Worship is the language of love and growth between believers and God; evangelism is the language of introduction between those who believe and those who don't. To confuse the two and put on worship the burden of evangelism robs the people of God of their responsibility to care about the neighbor, defrauds the believers of transforming depth, and steals from God the profound praise of which he is worthy. Of course the distinction is not total, for if believers worship with gladness and passion, anyone not yet a part of the community certainly will be attracted to the One who is the object of their worship.
